## PRIME MINISTER KING DECLARES:

# Conscription Is Not Necessary Now

## Wing Cmdr. Woodruff Is Awarded D.F.C.

LONDON, June 10.—(CP)—The distinguished Flying Cross has been awarded Wing Cmdr. Patrick Henry Woodruff of Edmonton for his part in leading an R.C.A.F. Blenheim fighter squadron of the coastal command during a recent attack on the German cruiser Prinz Eugen.

Wing Cmdr. Woodruff, who was awarded the D.F.C. for his gallant flying and his leadership, received the distinction of being named as the same time was commended as a pilot officer.

But, who learned of the award and promotion when he returned today from leave, was decorated for his work in connection with the attack on the Prinz Eugen in a Norwegian fjord and for courage and efficiency over a long period of time.

"Give him a job and you can depend upon it being well done," Woodruff said of his colleague. "He is a lighted-up concerning his own accomplishments but he is a good pilot."

Wing-Cmdr. Woodruff, who was 30 years old on May 11, is the son of Mr. and Mrs. F. W. Woodruff, 2642 87th Avenue. He learned to fly at a member of the Edmonton Aero Club, winning his private pilot's license here. He was born in Edmonton and attended Victoria and Westminster schools, later serving as an apprentice with the Canadian Company. He attended the University of Alberta for two years, and then returned to the drug company staff.

In 1937, he went to Britain to en-

# Fiscal Position Of Alberta Studied By Refunding Committee

Questions relating to the fiscal position and prospects of the province were discussed by the Alberta Debt Refunding Committee at Tuesday's session of the conference called to consider the refunding of \$121,000,000 of Alberta government debentures now in the hands of the public, it was reported in a brief statement issued by a spokesman for the committee following the close of Tuesday's session.

The conference went into its third day Wednesday and no decision was given as to how long the discussions which opened Monday would last. Hon. Helen K. Lee, provincial treasurer and chairman of the committee, presided.

Tuesday's statement issued on behalf of the committee said: "Various questions relating to the fiscal position and prospects of the province were discussed at a meeting of the Alberta Debt Refunding Committee on Tuesday afternoon. The committee is engaged in investigating the possibilities of reaching a basis for refunding Alberta public debt."

"Hon. S. L. Wood, provincial treasurer, presided."

"A further meeting will be held on Wednesday."

Alberta government representatives on the committee are Hon. M. L. Brown, Hon. E. C. Manning, provincial secretary and minister of trade and industry; Hon. Dr. W. W. Cross, minister of health and relief; and J. P. Percival, deputy provincial treasurer.

Bondholders' representatives on the committee are Courtland Elliot, Toronto economist with A. E. Ames and Company, Toronto; H. W. Tait, assistant treasurer for the Prudential Insurance Company of America, Newark, N.J.; H. A. Howard, vice-president and general manager of the Trusts and Guaranty Company, Ltd., Calgary; and J. M. Lynd, secretary of the Dominion Mortgage and Investment Company, Ltd.

The total of \$121,000,000 under review by the committee for proposed refunding represents the debt of the province, including the refunding of the Alberta government now in the hands of the public.

In a statement issued last month Treasurer Lee said the provincial government was attempting to obtain a refunding measure at a lower rate of interest. He also said that the budget and guaranteed debentures adopted would likely involve the issue of bonds to be sold to the public for new debentures carrying a lower rate which the taxpayers of the province could afford to pay.

**AVERAGE RATE**  
The present average rate on Alberta bonds is 2.44 per cent, the legislature in 1936 and 1937 having passed legislation reducing the rate of interest on all debentures by 50 per cent of the rate specified.

The present average rate is being made by the government to holders who wish to accept payment in cash.

Approximately \$22,000,000 of the \$121,000,000 is now in default.

## Dies In Toronto

By HENRY C. CASSIDY  
MOSCOW, June 10.—(AP)—The Russian defenders of Sevastopol have not yielded a "single line" to the Germans although the fight for the besieged Crimean port hourly grows more intense, with the Germans incessantly attacking by land and in the air, Soviet reports declared today.

Dispatches to Red Star, Russian army newspaper, frankly said the German infantry had penetrated to a hillside where the Nazis were trying to take two heights. But these reports added that the battle generally still raged at those approaches to the city about which it began last Friday.

"Not a single line held by the defenders of the city has been seized by the enemy," the Red Star dispatch said.

In the reports added, German planes have broken through Soviet defenses at some points to bomb Sevastopol.

Shuttle from Sevastopol's defenses have been reported to have taken 100 men today in checking out the city's 200,000 inhabitants.

Major John W. Fry and the City Commissioners were instructed Tuesday night by city council to seek the opening of negotiations with the bondholders' representatives on the refunding of the city's debt.

The view was expressed by several aldermen that the committee should be given the right to sit at the legislative building on the refunding of the province's debt.

Major Fry said that a start could be made in negotiations with members of that committee which might result in subsequent meetings on city refunding.

**SUGGESTS MEMORANDUM**  
Ald. James H. Ogilvie suggested that a brief on civic refunding be prepared for presentation to members of the committee representing the bondholders in which the city's position should be clearly defined.

Mayor Fry said that a municipality should be given consideration in any refunding plan contemplated in Alberta.

Ald. H. D. Aitken, in moving that the mayor and commissioners seek the opening of negotiations toward refunding of the city's debt, said that interest rates now being paid by the city were too high in the light of interest rates now being paid by the province.

**Thousands Japs Die Off Midway**  
PEARL HARBOR, June 10.—(AP)—Thousands of Japanese perished in last week's battle off Midway Island, it was indicated by incomplete returns of enemy ship losses as disclosed today by Admiral Chester W. Nimitz, commander in chief of the United States Pacific fleet.

WASHINGTON, June 10.—(AP)—The United States navy announced yesterday that a medium-sized Norwegian merchant vessel had been torpedoed in the Atlantic and its survivors landed at east coast ports.

## Premier Asks Power To Impose Overseas Service When Needed

OTTAWA, June 10.—(CP)—Prime Minister Mackenzie King, launching the conscription debate in the House of Commons, today said the government does not believe conscription for service overseas is necessary at the present time.

"Moreover, it may never become necessary," the prime minister said.

"But in case it should ever become necessary it is surely the part of wisdom that there should be no doubt whatever of the power of the government to take the necessary action the moment the necessity to do so may arise."

## Moves Second Reading Of Bill

The prime minister moved second reading of bill 50 which would amend the National Service (Militia) Act and leaves the government free to require men for service in any theatre of war by proclamation.

The National Resources Mobilization Act given assent June 11, 1940, empowers the government to call upon Canadians to perform their services and their property at the disposal of the government for the defence of Canada or the efficient prosecution of the war.

But Section 3 limited the power of the government to compel men to serve only within Canada or in the territorial waters.

Thus the prime minister said, power to conscript, subject to limitation as to theatre of action, has been in effect since June 1940, in regard to property as well as manpower.

**NOT NEW PRINCIPLE**  
"That power, which has been deemed necessary or expedient to do so, has been exercised ever since and is being exercised by the government today," he said.

"Adoption of the amendment does not mean the adoption of any new principle with respect to the raising of men for military service."

Mr. King said the original act left it to the government to make use of the powers conferred upon it as circumstances dictated.

"This will be equally true of the powers of government-influenced under the act as amended," he said.

**Nazis Destroy Czech Village**  
NEW YORK, June 10.—(AP)—A report from London today said that German authorities had destroyed an entire village in former Czechoslovakia after shooting all the male inhabitants and deporting the women.

The report, heard here by CBS, was said to have been broadcast first by the Prague radio and relayed through BBC.

"A village in the protectorate has been encircled at the orders of the German authorities. All male inhabitants were shot, all women were deported and the entire village was leveled to the ground."

**Man Found Hanged**  
Local headquarters of the Evansburg detachment from the British Royal Air Force, which was found hanging in his barn on Tuesday, was said to be a case of suicide.

Constant King of the Evansburg detachment is investigating the case, which is believed to be a case of suicide.

## AVOID DEPRESSION U.S. To Keep Up Vast Spending After War

This is the sixth of a series by Mr. Hutchison, who has been in Washington surveying the American war scene.—EDITOR.

## By BRUCE HUTCHISON

Political Writer of The Vancouver Sun  
WASHINGTON, June 10.—That many-sided social upheaval called the New Deal has developed grave rifts between its leaders and followers. But it is united on the basic decision which, if it is maintained, will permanently alter the economic shape of all America, including Canada. The decision is that there shall not be another depression after the war, that the state must prevent any possibility of depression by continuing to spend huge sums of money.

## Lang Is Elected C.M.A. President

TORONTO, June 10.—(CP)—Louis L. Lang of Galt, Ont., was elected president of the Canadian Manufacturers' Association today, succeeding Harold Crabtree of Montreal, president for the past two years.

F. L. Laik, Montreal, was elected first vice-president, and Capt. Aubrey Davis, Newmarket, Ont., second vice-president. T. F. F. Penny of Toronto was re-elected treasurer.

Among those named to the executive committee were: John Burns, Calgary; J. E. Davies, Medicine Hat, Alta.; T. George Wood, Raymond, Alta.

## TO HAVE BRAIN DISSECTED FOR POSTERITY

# Hitler Considers Self perfect Example Of Master Race

By FREDERICK C. OCHSNER  
Copyright, 1942, by The British United Press  
NEW YORK, June 10.—(BUP)—On a Friday day in 1931 a half-dozen men gathered in the front parlor of Adolf Hitler's apartment on the Prinz Regent Platz in Munich.

The Nazi dictator, out of his colossal egoism, had summoned a commission of experts under the leadership of the famous surgeon, Prof. Ferdinand Sauerbruch, to measure his head in order that future generations might know the exact dimensions of his cranium. Hitler considers himself a perfect example of the "Herrenvolk," the master race, and he wanted to leave a pattern for posterity.

Some of the more mature members of the commission, I happen to know, were privately a little ironic about Hitler's almost childish enchantment with his proceedings, but others were typical Nazi sycophants and the affair was conducted in great solemnity.

## "Fighting Maniacs" Under Gen. Koenig Blasted Huns In Struggle For Plateau

SOMEWHERE IN THE WESTERN DESERT, Libya, June 10.—(BUP)—The gunners of Bir Hacheim, 50 miles southwest of Tobruk, came through their heaviest attack looking for new Nazi names to curse as they fired their smoking field pieces.

### What Council Did

Retorted to council's nominating committee, the communication from the Town Planning Commission asking for the appointment to the commission of a successor to the late George L. Parney.

Approved the appointment of George L. Docherty as acting city clerk during the period of City Clerk Alfred Russell's holidays.

Appointed Aid Sidney Parsons as deputy mayor for the period June 23 to September 3.

Referred to the bylaws committee for consideration and report the request from the Consumers' League of Edmonton that "immediate steps be taken to extend the area known as the milked from within the supply of fluid milk for Edmonton 3000."

Passed the formal resolution declaring Monday, August 3 the annual civic holiday.

Concurred in the commissioners' recommendation that grading and leveling local improvement on 147 street from 102 avenue to 103 avenue be carried out.

Accepted Aid James H. Ogilvie's motion that a "special committee of three, to be named by the mayor, be set up to require info and report on ways and means whereby council may assist in overcoming the serious housing situation in the city."

Recommended that Mayor Fry, one commissioner and an alderman to be named by the mayor represent the City of Edmonton at the annual convention of the Union of Alberta Municipalities to be held at Calgary on June 25 and 26 next.

### Actor Dies

LONDON, June 10.—(CP)—Stanley Lupin, 47, father of actress Idina Lupin, and himself an internationally known comedian, died early yesterday. A native of London, Lupin began his stage career there in 1912. He went to the United States in 1922 and starred in "Naughty Riquette" and "The Nightingale."

He had only one day off since the attacks began and not a single moment in to the "tourment," one soldier said.

Gen. Koenig's only comment on the attack was: "The Huns."

"My orders were to hold Bir Hacheim. We did."

## Board Approves Use Of Schools A.R.P. Lectures

Use of Western, Oliver, North and Highlands schools for A.R.P. lectures by the North Battleford, V.R., on Tuesday, Wednesday, Thursday and Friday nights of this week was approved Tuesday night at the regular meeting of the Edmonton Public School board.

The board requested use of those schools and Queen Alexandra for regular air raid lectures to be held in evenings from June 9 to 12.

Approximately 25 schools will be used in the lecture series and the board also requested for the practice of the school board.

Transfer of 35 pupils from West Jasper Place school to the Glenora elementary school in the coming year, on request of the Jasper Place school board, was approved.

The board decided to grant a cut of living books to general librarians of the maintenance department at the rate of two and five cents an hour for men without and men with dependents respectively.

Leave of absence was granted to Miss Jessie McWilliam and Miss Mary Mercer, and extended leave of absence to Miss Robert M. Anderson. Resignations were accepted from Miss Alice Collier, Miss Katharine Campbell, Miss Barbara Holm, Miss Marjorie Barnhouse and Miss Martin Smith. All are teachers with the exception of Miss Campbell.

Miss Campbell has been with the medical staff of the board since September, 1938, as head nurse and in charge of the office. Tribute was paid for her work by Dr. Gordon Swallow, board medical officer.

Chairman A. E. Ottewill presided.

## Stabilization Of Wages Throughout Dominion Is Urged

OTTAWA, June 10.—(CP)—Rev. Daniel Melvin (Lb., CP)—Rev. Melvin, made a plea in the House of Commons last night for uniform wage rates throughout the Dominion.

Speaking during the debate on the war appropriations bill, he said that the provinces were paid higher wages than those doing the same work at Fort William.

"This makes for unrest among the workers," he said.

He said to Quebec members: "The issue offered one of the greatest struggles they must face in the future." He also argued that a workman would struggle to get the same wage rate as a man if she performs the same work.

"The office called and said not to worry about a thing during your vacation—your substitute just for three years!"

## CHANGES URGED

## Municipal Co-Operation To Amend Soldiers' Tax Act Sought By Edmonton

Asserting that the Soldiers' Relief Act, 1940, in some of its applications is working an injustice in so far as the municipalities are concerned, the Edmonton City Council will ask the co-operation of the Union of Alberta Municipalities in seeking amendments to the act.

The following resolution, proposed by Aid H. D. Alalay, was unanimously passed by council, and will be forwarded to the Union of Alberta Municipalities.

1.—Whereas the provincial legislature passed "The Soldiers' Relief Act, 1940," which said that among other things grants tax exemption in respect of home property of a soldier;

2.—Whereas the act in some of its applications is working an injustice in so far as the municipalities are concerned; now therefore this council urges the provincial legislature to review the provisions of the said act and to amend the same in the following respects:

CHANGES ADVOCATED

1.—To limit the benefits of the act to a maximum assessment of home property, say, \$2,500, such amount of exemption to apply also to home properties of high assessment.

2.—To provide that where home property is not actually occupied by a soldier or by dependent members of his own family or a retired soldier, the exemption shall not apply.

3.—To provide that in cases where the soldier or dependent members of his own family occupy only a portion of the home property, the exemption shall apply only to the portion so occupied.

4.—That where the municipality loss in revenue by reason of exemption allowed under the act exceeds any one per cent of the total assessed value of the property, such excess shall be paid by the province to the municipality concerned.

5.—That such benefits be continued in the event of the demise of the soldier while serving in His Majesty's forces or of non-actual wound or sickness received or contracted during service for one calendar year thereafter or at such earlier date the property is rented or such person as may be rented for any purpose.

6.—That the city clerk be instructed to advise the members of the Union of Alberta Municipalities for their consideration and support.

In moving his resolution Aid Alalay said council should be concerned with the increasing number of tax exemptions under the act, adding that a very serious situation might arise if consideration were not given to the problem.

DISAPPOINTMENT

He said it was possible that if invasion threatened the number of men called up who were tax payers might result in the tax payment structure being thrown out of gear and the city finding itself faced with the unpleasant situation of being deprived of practically all revenue from land taxation source.

It was pointed out by City Solicitor T. E. Garvie, K.C., that in Saskatchewan there was an assessment of \$2,500, while in British Columbia and Manitoba the tax exemption was a matter for decision by the individual municipality.

## Gyron Inspect School

Following a dinner at the Edmonton Club at 6 p.m. Tuesday, members of the Edmonton Gyron Training School for an inspection tour of the city.

They were guided about the premises by P. L. J. G. Wheat, who was the dinner party prior to the inspection.

## Nuisance Of Garbage Dump To Be Abated

City Commissioners were instructed by the city council Tuesday night to take immediate steps to abate the nuisance caused by the east end garbage dump.

This action was taken on a petition for 60 residents in the Cramond district protesting against the nuisance and fly condition created by this dump.

The petitioners requested the immediate abatement of the nuisance, and said that the dumping and burning of tons of garbage practically at their front doors was a preposterous state of affairs.

Ald. Fred J. Mitchell stated this was a problem that had to be tackled and solved. He said that complaints had been received on numerous occasions, but no action seemed to be taken to remedy the situation.

Mayor John W. Fry said the situation at the dump was controllable to a greater extent than it had been and promised that immediate action would be taken to remedy the situation.

One petitioner said he had been compelled through the repulsive odors and the multitude of flies to sleep behind closed windows, and that he had found it impossible to rest in his home because of the conditions prevailing.

Ald. Sidney Parsons was of the opinion that the whole system of dumping garbage should be investigated, adding that if conditions were so reported, he would see that remedial measures were put through the board.

Tomlinson overtook should come with the scope of any plan designed to solve the problem of the seven auxiliaries represented only a portion of the men from the city now serving in the armed forces. All Edmontonians should be treated alike, he said, and council should give consideration to the suggestion of the committee for one tag day.

This tag day, if properly organized, and with the backing of the special canvas committee, should result in a substantial amount of raising sufficient money to Edmontonians serving overseas with the armed forces.

## Women's Units Ask Extension For Tag Days

Asserting that members of the Edmonton "Ladies War Auxiliaries" have an honest conviction that they are not taking for too many when requesting they be granted four tag days, the women's auxiliaries, presented to council Tuesday night the decision of the Special Tag Day committee allowing the auxiliaries one tag day.

After discussion council decided to refer the matter back to the committee for consideration of an extension of the tag day, granted or in the alternative to work out a plan in which the one tag day, supplemented by efforts of a men's canvas committee, would achieve the objective sought by the auxiliaries.

## WORK INVESTIGATED

Oliver McIntyre, a member of the committee, stated that the work of the auxiliaries had been carefully investigated and it had been found they were carrying on "a good work that was essential to the morale of the men of the armed forces. This work should not be impeded by the act."

He said the suggestion had been made to the auxiliaries that they hold joint tag days, but the amount collected be pooled and apportioned among the auxiliaries on the basis of personnel strength at the time the appeal was made.

In addition, he suggested that a committee of business men might be set up to canvass funds from business houses to supplement the amount collected by lagging.

He was confident \$3,500 could be obtained from both sources. He said the holding of successive tag days tended to discourage the public from giving wholehearted support.

Mr. McIntyre pointed out also that only a portion of the men of the Dominion were covered by the auxiliaries, and that the tag days were distributed to tag days to avoid competition to the men who prefer to contribute in a fund which makes available to all Edmontonians the benefits of the tag day.

He added that if the objective desired was achieved, the work was not achieved by the tag day and canvas by the special business men's committee that functioned in addition to the tag day could be made more effective.

## FAYORS ONE APPEAL

Ald. H. D. Alalay expressed the opinion that "if only one appeal tag day was held, it would be more generally favored."

He favored the plan of having a business men's committee canvas for funds in addition to the tag day, and was confident that a better financial result would be achieved by this proposition than would result from the tag day alone.

Following a dinner at the Edmonton Club at 6 p.m. Tuesday, members of the Edmonton Gyron Training School for an inspection tour of the city.

They were guided about the premises by P. L. J. G. Wheat, who was the dinner party prior to the inspection.

Ald. Sidney Parsons, while agreeing to a degree with the recommendation of the committee, felt it was impossible to get sufficient funds through the tag day.

Ald. A. Bisset said there was no broader question that all Edmontonians should be treated alike.

## FAR-REACHING PLAN

## Great Britain, U.S. Pool Entire Industrial, Farm Resources As War Move

WASHINGTON, June 10.—(CP)—The factories and farms of the United States and the United Kingdom were pooled yesterday in such a manner that their operations may be directed toward winning the war as if the two countries were one.

This was accomplished by the establishment of two joint boards, announced at a luncheon by President Roosevelt and Prime Minister Churchill in Washington and London. One is a "combined production and resources board" and the other a "combined food board."

Donald M. Nelson, chairman of the war production board, and Oliver Lyttelton, British production minister, were named to chair the board. The board will coordinate the production and resources of the two countries.

The board will coordinate the production and resources of the two countries. The board will coordinate the production and resources of the two countries.

The board will coordinate the production and resources of the two countries. The board will coordinate the production and resources of the two countries.

## TIME IS FLEEING

## City Police Will Start Testing Cars Next Saturday

## Elimination Of Unsafe Vehicles Is Objective Intense Safety Drive

Aimed at driving every unsafe car or truck off the streets of Edmonton before the end of this year, police on Saturday, June 13, will start an intensive test of the brakes on every motor vehicle failing to show one of the official safety stickers. A. G. Shute, chief constable of the Edmonton police force, announced Wednesday.

## Safety Sticker

This is a black and white reproduction of the red, white and blue colored, windshield stickers that drivers of safe cars and trucks may obtain from co-operating garages or service stations during the present Safety Drive.

Back of each sticker reads as follows: "This is to certify that the vehicle bearing this official safety sticker, No. 212408, was inspected by a garage or service station recognized by the Edmonton City Police Department and approved safe on May 26, 1942, and the owner or operator, John Doe, is helping police eliminate unsafe vehicles that constitute a menace to life and to property that cannot now be replaced, resulting in overcoming the economic waste of traffic accidents on the home front at a time when every cent is needed to win the war. Signed, A. G. Shute, Chief Constable, Edmonton City Police."

## Motorists Aid Police Check Car Features

"Somewhere in the neighborhood of 300 conscientious owners or operators of safe cars and trucks in Edmonton already are co-operating with the police by having voluntarily had the condition of their brakes, lights, windshield wipers, and horns approved at the garages and service stations taking part in this campaign," officials declared in commenting on the progress of the safety drive to date.

"Up to noon on Tuesday many garages and service stations, qualified to test motor vehicles, were playing an important part in the city-wide car and truck inspection, making free tests of the condition of brakes, lights, windshield wipers and horns," it was stated.

"Co-operating garages and service stations report they have had difficulty in keeping up with the flood of requests for voluntary tests under the conditions of the present safety campaign, and to date have been unable to test all cars and trucks being submitted.

**HOPE TO COMPLETE**

"However, by the time police commence their compulsory inspection of machines failing to show the official stickers, the co-operating services men expect to have completed the bulk of the voluntary tests, and anticipate that among the majority of 'stickered' vehicles a lot of really dangerous machines will be found.

"With this wholehearted co-operation, it is going to be a comparatively easy matter for police to single out the dangerous cars and trucks, and hale them into police court on various charges under the Vehicle and Highway Traffic Act."

"Then, as soon as we are certain that the vehicular equipment being driven in this city is entirely safe, we will know that accidents are being averted, caused through the carelessness or negligence of the drivers and we can take steps to end this menace, too," it was pointed out.

## Testing To Start

Chief Constable A. G. Shute.

he train stops in a station, there's somebody on the job, standing in and out under the cars, making sure that everything is in good shape for the train to continue, its trip. One of the things checked at every inspection point is the brakes, for nobody knows better than railroads how important it is to be able to stop when you have to stop.

"Now, if we think of it in a certain way, we people who own automobiles are all running along in a transportation system of our own. Just like the railroads and airlines and bus companies. Home is the main terminal, and there are lots of stops along the line—flag stops, you might say, and regular scheduled stops—like the office, the grocery store, the school, the theatre, and our friends' homes."

"Just like the railroads, one of the main things we need to look out for is our brakes. Of course, everybody knows this, and yet somehow or other we're apt to be a little careless about it. Not that the brakes don't give us plenty of notice when they're going to need adjustment. As time goes on, we find that we can push the pedal lower and lower, till after a while we can shove it down to the floor boards before the brakes take hold. Even then, we sometimes wait quite awhile before we have them adjusted. It just seems to be human nature to put off things like that. And they tell us the result is that one-third of all the cars on the street and highways have something wrong with their brakes."

"The trouble is that when we let our brakes go like that, all of a sudden we may have to make an emergency stop, and we may find it rather embarrassing. Engineers say that if we realized what goes on in brakes we would see why we ought to keep them checked up. As they explain, it's a story of momentum and friction. The same old forces we've talked about before."

Police action in this regard, scheduled to have started Saturday, June 6, was postponed for one week, owing to the fact that garages and service stations were unable to handle the rush of drivers seeking voluntary inspections.

(Signed)  
A. G. SHUTE,  
Chief Constable,  
Police Department  
CITY OF EDMONTON.

## All-Out Effort Remove Unsafe Cars To Start

Announcing a war to the finish on cars and trucks that are menacing the safety of pedestrians and motorists with dangerously unsafe equipment, Chief Constable A. G. Shute issued the following statement for publication:

"More than sufficient warning has been given the owners of cars and trucks operating in the city of Edmonton with regard to the condition of brakes, lights, windshield wipers and horns, and commencing Saturday, June 13, motorcycle officers have been instructed to lay charges under the Vehicle and Highway Traffic Act against the owner of any vehicle being operated on the streets of this city in an unsafe condition."

"Police officers have been instructed to stop and test the brakes on any motor vehicle that is not displaying one of the official safety stickers, which indicate that the safety features have already been tested and approved in one of the officially-recognized garages or service stations. Efforts of the police department in this direction will continue until we are sure that every dangerous car or truck has been removed from the streets. Every vehicle that displays one of the official stickers makes our work just that much easier."

"Let me again warn the operators of garages and service stations as well as the motoring public that the stickers are to be placed only on motor vehicles that are in a safe condition with regard to brakes, lights, windshield wipers and horns, and the greatest care must be exercised in issuing them."

## Additional Sport Giants Put Damper On Reds

### Hank Borowy, Yank Rookie Limits Tigers To Four Hits

NEW YORK, June 10.—(AP)—One of the New York Yankees' streaks was broken but it stood up Tuesday as the American League champions came from behind to whip Detroit Tigers 4-1.

Hank Borowy, rookie right-hander not long out of Fordham University, limited the Tigers to four hits, only one of which was a fly extra base, in shaking up his fourth victory of the season without a defeat.

Joe Goheen connected with a single off Dizzy Trout in the second inning to run his batting string in 29 successive games but Buddy Harsett's at-bat expired after reaching 20 games when he failed to connect safely in four tries in the plate.

Brooklyn's 10th win in 12 games, Detroit's 10th in 12, and the Yankees' 10th in 12, were the only ones in the American League.

Trout and Tetsuharu Ariga, Detroit's pitcher, were the only ones to pitch more than one inning.

BOBBY COLLECTS FOUR HITS  
DETROIT, June 10.—(AP)—Bobby Collette collected four hits, including a home run and a double, out of four tries Tuesday when Brooklyn beat the Yankees 4-1.

Collette's home run, which was his second, came in the second inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's double, which was his first, came in the third inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's single, which was his first, came in the fourth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's walk, which was his first, came in the fifth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's error, which was his first, came in the sixth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's strikeout, which was his first, came in the seventh inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's hit, which was his first, came in the eighth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's run, which was his first, came in the ninth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's RBI, which was his first, came in the tenth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's error, which was his first, came in the eleventh inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's strikeout, which was his first, came in the twelfth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's hit, which was his first, came in the thirteenth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's run, which was his first, came in the fourteenth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's RBI, which was his first, came in the fifteenth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's error, which was his first, came in the sixteenth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's strikeout, which was his first, came in the seventeenth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's hit, which was his first, came in the eighteenth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's run, which was his first, came in the nineteenth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's RBI, which was his first, came in the twentieth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's error, which was his first, came in the twenty-first inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's strikeout, which was his first, came in the twenty-second inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's hit, which was his first, came in the twenty-third inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's run, which was his first, came in the twenty-fourth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's RBI, which was his first, came in the twenty-fifth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's error, which was his first, came in the twenty-sixth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's strikeout, which was his first, came in the twenty-seventh inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's hit, which was his first, came in the twenty-eighth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's run, which was his first, came in the twenty-ninth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's RBI, which was his first, came in the thirtieth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's error, which was his first, came in the thirty-first inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's strikeout, which was his first, came in the thirty-second inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's hit, which was his first, came in the thirty-third inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's run, which was his first, came in the thirty-fourth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's RBI, which was his first, came in the thirty-fifth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's error, which was his first, came in the thirty-sixth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's strikeout, which was his first, came in the thirty-seventh inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's hit, which was his first, came in the thirty-eighth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's run, which was his first, came in the thirty-ninth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's RBI, which was his first, came in the fortieth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's error, which was his first, came in the forty-first inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's strikeout, which was his first, came in the forty-second inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's hit, which was his first, came in the forty-third inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's run, which was his first, came in the forty-fourth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's RBI, which was his first, came in the forty-fifth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's error, which was his first, came in the forty-sixth inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

Collette's strikeout, which was his first, came in the forty-seventh inning, off Hank Borowy, who pitched the Yankees to a 4-1 victory.

## Twilight Racing Proves Very Popular In Winnipeg

WINNIPEG, June 10.—(CP)—Twilight racing, introduced on Winnipeg tracks this year for the first time, is proving popular with followers of the king of sports.

A Drayton waste management, prohibiting special tram and rail services to Whittier Park—a half-mile from the nearest street car line—has been put in effect.

The races are run between 5 p.m. and 8 p.m. each week night instead of from 2:30 to 5:30 p.m. in other years.

During the first seven days of the season, attendance was a 18 per cent increase in attendance was recorded. Horse racing is popular with members of the active and reserve armed forces with a noticeable increase in the number of fans in attendance.

Racing officials eventing race a "distinct success" and as they expect even larger crowds when the 14-day meet opens at Polo Park June 10. Polo Park is situated within Winnipeg's city limits and on the west end of the city.

Fans poured five per cent more to the first night of the meet, a 18 per cent increase in attendance was recorded. Horse racing is popular with members of the active and reserve armed forces with a noticeable increase in the number of fans in attendance.

During the first seven days of the season, attendance was a 18 per cent increase in attendance was recorded. Horse racing is popular with members of the active and reserve armed forces with a noticeable increase in the number of fans in attendance.

Council Plans Further Influx Of Japanese Into City

New Admissions Are Held Unadvisable In View Of Serious Housing Problem

Japanese now resident at the Pacific coast but under orders from the British Columbia Security Commission to vacate the prescribed military area will not be given permission to come to Edmonton.

Passes Givers

Hon. Ernest C. Manning, minister of trade and industry, who is handling round the smokes to his friends. The reason? He became, on Wednesday, the father of a splendid baby boy weighing eight pounds, 12 ounces. Already there is a charming youngster in the house calling him "Daddy". But now that the stork has brought another, Mr. Manning, quite naturally, feels doubly pleased.

Cadet Inspections

In Near Future

Arrangements for the annual inspections of cadet companies were completed last week in conferences between school principals and Capt. H. R. Hutton-Brown, also a cadet instructor, for attendance at Sarcee Camp of cadets from Edmonton schools this year.

Gay and Colorful New Cotton and Spun Rayon Classics

Frocks That Live a Life of Usefulness!

Comfortable, Active and Sporty—we call them. They're with you from dawn till dusk—at work, pretty at play—golfing, bowling, picnicking etc. —gay and colorful at luncheon time. Able to take it without losing any of their color-fitness.

Puka Dots "SPUN RAYONS" so smartly styled their scope of service is practically unlimited! Some have shortwaist tops, others button fastening from neck to hem and many. Sizes 16 to 44

NEW Summer Frocks

Prim and Proper as an Officer's Uniform!

6.95 8.95 10.95

A smart simplicity of line and treatment brings these Frocks well into line with the trend of our times.

Truly styled Two-piece Frocks with officer type jackets. Made from fine checks and plaids. Sizes 16 to 20 and 18 to 17.

Cool Cotton Frocks

Of Chambrays, Zephyrs and Corded Percalés

5.95 6.95 7.95

Look them as a day... wear Cotton Frocks all summer long... they take endless washings and ironings—without losing any of their brightness! They're cool, they're pretty in these gorgeous styles.

Chambrays... zephyrs... and corded percales, plaids, etc. Fine stripes and plaids. Sizes 12 to 40

Priced at... \$5.95, \$6.95 and \$7.95

Light Weight Summer Girdles for Average Figures

An ideal Girdle for the warm summer months. Semi-Step-in style, zipper closing. Made of rayon with "Luster" mesh back sections. Boned back with two small bones at waistline to prevent "pulling." Sizes 24 to 30. Priced at... 2.98

## Single Girl Has Criticism Of Mother Unwed and Efficient Woman Worker Complains of Parent's Attitude; She's Well Able to Look After Self in Working World

A young woman says: "I am 24 years old. I graduated at the head of my class in college. I have a fine position in a big business firm and am trusted with making important decisions."

"I mean to say that I am an intelligent adult, yet my mother treats me as if I were a child."

"I am a minded child. She doesn't pretend to have the slightest respect for my opinion or knowledge."

"She tells me to go to bed and not to go to bed and not to go to bed."

"I am a good cook, but I never start toward the kitchen that she doesn't stop me and tell me just how to make a cake, although I have made thousands of them."

"She still feels it is her duty to read my letters and listen in on my telephone conversations and pick my friends and every letter I get and I come in late through a questionnaire about where I have been, when I have been and what they said, and I am home earlier."

"For you see, I am still unmarried and, in my mother's eyes, I am in the eyes of all the other mothers in my school, feeble, helpless creature, incapable of taking care of herself, although she has to be 30 years old."

"I know, an unmarried daughter is a poor, feeble, helpless creature, incapable of taking care of herself, although she has to be 30 years old."

"I have heard, yet Mother treats Sally as her equal and me as her inferior."

"I have heard, yet Mother treats Sally as her equal and me as her inferior."

"I have heard, yet Mother treats Sally as her equal and me as her inferior."

"I have heard, yet Mother treats Sally as her equal and me as her inferior."

## McCooy Health Service

The diagnosis of mucous colitis does not present any difficulty when the patient is carefully examined and questioned closely as to the case history. A history of the finding of mucus in the stool, abdominal tenderness, and more or less frequent digestive upset, should point the way to the diagnosis.

When the patient comes to the physician's office when the colon is undergoing a "crisis" period and is on the warpath, the diagnosis is much more easily established. However, careful examination even during periods of remission, which are periods when the trouble is less acute, is important.

The question which is uppermost in the mind of the patient is why he can do during one of the periods of upset. Fortunately, there are several measures which are generally helpful in providing relief.

One of the most valuable of these measures is applying heat. Heat may be applied by means of a hot water bottle, by using towels which have been dipped in hot water, by taking an all-over hot tub bath, etc.

Care as to diet is also helpful. When the colon seems particularly irritable it is often a good plan to use only the cooked vegetables, avoiding the raw salad variety, and taking these cooked ones in a puree form. Puréeing will break up the vegetable fiber and provide the colon with a soft, smooth bulk, which is often soothing. If there has been considerable trouble with

gas, playing away from mixtures of starches and sugars for a time, and cutting down on the use of starches in general, will help to cut down on the gas formation.

In addition to the vegetables, the patient may take meat, soup, Melba toast, eggs, and perhaps apple sauce or stewed dried fruit.

When the abdominal unrest is severe it is usually a good plan to fast for a few days, taking nothing but water, or using feedings of tomato juice, taking eight ounces of the juice every two hours. The fast gives the irritated colon a chance to rest and recover.

During a crisis period the patient should avoid long automobile rides, strenuous exercise, late hours, emotional excitement and so on. Rest and relaxation are capable of doing a great deal of good.

The enema is of great value in these cases, the water in the system being used as hot, as the patient is able to tolerate. The enema can be used with fear for several days if used easily and is very helpful in that it keeps the colon clean without irritating it.

During periods of constipation the patient may try the oil retention enema, or may try taking a laxative. The agent provides the material for a soft, large stool and has the virtue of being non-irritating.

The combination of heat, a wisely selected diet, rest, and the enema is usually sufficient to convince the patient the colitis is reliable. The

patient can not be promised a quick cure, as often a long period of treatment is needed before recovery is well established.

Exciting success that's how every young fashion artist feels when her first cheque comes in. And it doesn't take years of study to become proficient. You can begin to learn at home.

With the aid of charts, you are shown how to start your figure, draw the head, draw a vertical line for body and legs, an oval for the head. Then draw horizontal lines for bust, shoulders, hips and waist, slanting them as the pose requires.

## Debunker

Shaving DOES NOT MAKE HAIR GROW FASTER

If a person lets his whiskers or hair grow for a year without cutting, and then shaves them all off, and compares this with the weight of the whiskers or hair shaved off daily during the following year, he will find, as experimenters have, that there is no difference in the amount of growth—providing the person's health and food have not changed. All those who shave or are combed out must also be shaved to make the experiment accurate. Hair and whiskers seem to grow at the same rate whether cut often or not at all.

Our 24-page instruction book shows in detail, with charts, and illustrations, how to draw the fashion figure. Explains perspective, foreshortening, line and wash techniques, the drawing of fabrics and hair.

Send 15c in coins for your copy of Fashion Drawing Made Easy to The Edmonton Bulletin, Home Service, 60 Front St., Toronto, Ontario. Be sure to write plainly your name, address and the name of the book.

Please allow a week or ten days for delivery.

## Your Baby And Mine

A child's behavior seldom has a simple cause. It is the result of his health, or of the way his parents treat him, or of his relationship with his companions or school teacher. All of these things are "behaviors" and they are all to be considered in trying to help him to more desirable behavior.

For instance, a child who is the victim of the timid boy who has suddenly become annoyingly aggressive. He may be overreacting to the anxiety of the timid boy who has suddenly become annoyingly aggressive. He may be overreacting to the anxiety of the timid boy who has suddenly become annoyingly aggressive.

A 6x6 grid with some cells shaded and numbered 51 through 60. The grid is as follows:

51					

JAPS BOMB U.S. NAVAL BASE

# West Coast At "Alert" After Raid On Dutch Harbor

This little Alaska fishing village at Dutch Harbor twice saw Japanese bombers at work: First raid did little damage.

Entire western coast on the alert, as Japs may be feeling for weak point in coastal defenses: Canada isn't far.

## Victor And Vanquished In Tank Battles On Libyan Desert

American-built "General Grant" tank, above, is ready to have distinguished themselves against the Germans in the current desert fighting. German tank, below, was blown apart by a direct shell hit. Turret, knocked off tank, still flames on the sand. Pictures radioed from Cairo to London, cabled from London to New York.

## "Through" In '37—Famous Now

Retired by the U.S. Army in 1937 for "disability in the line of duty," Capt. Claire L. Chennault has won international fame and a brigadier general's commission in both American and Chinese forces with his exploits as commander of the American Flying Tigers in China and Burma.

## Tough Tar And Tommy Gun

Pierce-vised sailor lets his hair down and goes into action covering a destroyer's boarding party during "away boarders" drill. He's armed with Tommy gun and service revolver.

## Here's What The Well-Dressed Canadian Soldier Wears—A Suit For Every Occasion

## Aids Air Cadets

Lovely star of the British stage and screen, glamorous Anna Neagle, will head the outstanding cast of personalities of stage, screen and radio who will shortly embark on a trans-Canada tour in a series of one-night benefit performances whose entire proceeds will be turned over to the Air Marshal Bishop Fund for the Air Cadet League of Canada. Appearing opposite Miss Neagle in her famed Queen Victoria role will be C. Aubrey Smith as the Duke of Wellington.

Smashed and burned out in a raid of over 1,000 R.A.F. planes, Cologne, Germany, presented this picture of havoc when an R.A.F. cameraman flew over after waiting days for the fire to burn out so the smoke would not obscure his photograph. Cologne's famous cathedral, upper right, appears to have escaped all but superficial damage. Running diagonally across the picture just in front of the cathedral is the Hohenzollern—once the city's busiest street. Note arrow: it points to black squares, outlined by white lines. These lines are tops of building walls, and wherever you see these, it's good indication that the building has been gutted.

## Crew Saved In Crash Landing

Despite a badly damaged propeller, a badly-shot rear turret, a wounded navigator and the fact that only the altimeter and rate-of-climb indicator on the instrument board were working, this Wellington bomber returned safely to its British base. The plane's skipper (right), made a crash landing without any of the crew being injured. The damage occurred during a raid on Kiel.
